

# PETITION TO HAVE LUCY, THE ELEPHANT AT THE VALLEY ZOO, MOVED TO A SANCTUARY

## To: Mayor Mandel, and Councilors of Edmonton

We the undersigned believe that there is sufficient evidence that Edmonton's cold climate is contributing to Lucy's arthritis and foot infections, the number one cause of death in captive elephants. The Valley Zoo continues to treat the symptoms, but only a change in lifestyle can address the underlying causes of Lucy's illness. We ask that Lucy be allowed to retire to The Elephant Sanctuary (or PAWS) to live out her life in a manner as close to natural as possible.
